## ***Stories of Magic and Enchantment***

Stories of Magic and Enchantment is a book of short stories about magic and enchantment. I write short stories like these several times a week. They are based on 41 years of practicing Franz

Bardon's hermetic magic. Some of these stories will turn into novels and screenplays.

## Mermaid Related Books

*Mermaid Tales*

Mermaid Tales is a book of stories about mermaids incarnated in human form. Most of these stories are based on extensive interviews with women whose empathy is so developed it is easier to call them incarnated mermaids than try to explain how a human being can do what they do.
